A substitute is considered long term when they sub for the same job and same person without the teacher returning during the time period. The long term sub rate will be paid if the sub fits this criteria and works consecutively for 15 days. The rate for 15 days through 44 days is \$150 per day. After 15 days there may be discretionary leave taken if approved by administration. Missing too many days could negate the long term sub pay. Working 45+ days for the same person will change the rate to the base teacher pay on the salary schedule (BSO-1), which is currently \$202 per day.
