

Facilities Needs Committee Meeting
March 22, 2013 – 7 AM
Toepfer Board Room

Attendees: Nick Schwien, Brian Weimer, Josh Waddell, Aaron White, Tom Drees, Pat Lowry, Tammy Wellbrock, Paul Briseno, Todd Powell, Will Roth, Mark Hauptman, Francis Hammerschmidt, Richard Cain

Visitors: Judy Sherard, Lance Bickle

Discussion on HHS Wants

- Aaron W. asked about inadequacy of Industrial Arts & Welding space at HHS.
- Share facilities with NCKTC?
- Should this be added to the HHS NEEDS list? Group wants Tom Albers to come to next meeting to discuss collaboration with NCKTC and the HHS Vocational Program.
- Tom D. suggested we consider a stand-alone building and repurpose current tech ed. space.
- Have HTK draw and cost-out a stand-alone Industrial Tech building.
- Maybe consider incorporating art request for paint room into this stand-alone building also.

Turf

- Tammy W. asked where committee was with artificial turf.
- Discussion on water issues and HHS fields.
- Todd P. wants details on uses of athletic fields at HHS – ask Clint A. to attend next meeting (usage description, number of participants by sport by field).
- Tom D. - Consider asking state for more water rights – change rules, eminent domain?
- Committee discussed turf as a multi-purpose field for many uses , including P.E., marching band, athletics, town teams and community groups.
- Francis H. stated turf on one field would solve our water shortage issues.
- Maybe present this option to BOE, (turf a multipurpose field).

Mechanical Electrical

- Tammy W. wants to review PEA (preliminary energy audit) to make sure we don't miss something that needs to go on a bond issue.

RAC

- Aaron W. said if abandoned, probably only use would be scrape and build purpose.
- Patrick L. spoke with Toby Dougherty who suggested if the district vacates RAC, district put restrictions on future usage to ensure community buy-in.
- Patrick asked if any part of the RAC complex is salvageable. Committee consensus is it must be an all or nothing issue. Extremely hard to sell if piecemealed.

Next Meeting

No meeting on March 29. Next meeting will be April 5th at 7 AM in Toepfer BOE room with Tom A. & Clint A.
